Mr. Gill moved, as a substitute, that the petition be referred to a special committee of three and the Prosecuting Attorney and be reported on tomorrow.

The Committee on Court House Building makes the following report:

To the Honorable Board of Supervisors of Kent County Michigan:

Gentlemen—Your Committee on Court House Building take great pleasure in reporting the very rapid progress made on the building since our last report to the Board at the January session, and it is our earnest hope and expectation that by July 1st, next, the building will be ready for occupancy.

Early in March your committee invited designs and estimates of cost for the fixtures needed in the entire building, and very satisfactory designs were submitted by several competitors. Your committee selected the designs submitted by Sprout & McGarrin of this city, manufactured by Simon &

Co., of Philadelphia, at the cost of \$2000 for the entire building, and have entered into contract with Sprout & McGarrin for the same at the above named price.

Early in February your committee invited bids from responsible firms in our city for inside blinds for building and awarded the contract to Messrs. White, Friant & Letellier, the lowest bidder, at the price of 65 cents per foot plain and 97 cents per foot for circle top in butternut. It became apparent to your committee that if the building was to be occupied this summer it was absolutely necessary to have the blinds in process of making, as the time required to put in place and finish would absorb all the time remaining.

We have to report that the mantels and fixtures are all in place complete; also the completion of contract with H. A. Streeter & Co. for iron work, including vault doors, first story; also contract for tile in corridors and closets; also that elevator and connections are in place, but the wire doors remain to be provided. It will be necessary to have some grading and sodding done before the final completion of the work, and your committee would recommend that authority be given to some proper committee to attend to the same.

Respectfully submitted,

R. B. LOOMIS,
J. W. WALKER,
J. T. GOULD,
W. D. FROST,
JAMES HILL.

Committee on Court House Building.

Mr. Benjamin moved that the report be received and that so much thereof which refers to contracts made by the committee be approved and satisfied and that so much thereof as refers to sodding and grading be referred to the committee on Court House Building with power to act.

Carried by a vote of 33 yeas and no nays.

On motion of Mr. Gould the Chairman was authorized to appoint Mr. J. W. Walker, ex-Supervisor of Vergennes township to a membership on the Committee on Court House Building.

The Chairman appointed as the special committee to examine the petition of the Valley City Transportation Company, Limited, Messrs. Gill, Solomon and Skeels.

On motion of Mr. Loomis, the rules adopted by the last Board were adopted as the rules to govern this Board until otherwise ordered.

On motion of Mr. Kinney the Board adjourned until tomorrow at nine o'clock in the forenoon.

CORNELIUS L. HARVEY,
Clerk.

AUGUSTUS W. WEEKES,
Chairman.

WEDNESDAY, April 20, 1922.

The Board of Supervisors met pursuant to adjournment and was called to order by the Chairman. Roll called. Quorum present. The minutes of yesterday's proceedings were read and approved.

The Committee on Poor House Building made the following report and on motion of Mr. Skeels the report was adopted:

To the Honorable Board of Supervisors of Kent County:

Gentlemen—Your committee on Poor House Building would respectfully report that good progress is being made on the new county poor house. The stone work in the basement walls is nearly complete and a good deal of the material to be used in the construction of the building is now on the ground. In a few days bricklayers will commence work and the building will be pushed forward to completion as fast as possible.

The well, which at the last session of your honorable body your committee was instructed to build, has been completed, except the furnishing of a steam pump; also that the main sewer is nearly finished. Your committee have employed a good, competent superintendent to look after the construction of the building and are confident that he will see that the plans and specifications are carried out. Your committee have thus far allowed estimates on the building and material to the amount of \$604.21. This includes money paid for gravel and excavating done by the day. Your committee have also paid on the construction of the well and main sewer \$243.20 out of the general fund of the county as instructed by your honorable body at its last session. The cost of the well was \$168.26, and in the judgment of your committee the well will supply all the water necessary to supply the building in any event.

Respectfully submitted,

N. D. EMMONS,
CHAS. E. HOGADONE,
JOHN KINNEY.

Committee on Poor House Building.

The Chairman announced the following as the standing committee for the ensuing year:

Committee on Vault Fixtures—Lewis A. Solomon, Fremont E. Skeels, Simon Sullivan.

On motion of Mr. Loomis the communication from Henry E. Doren was taken from the table.

Mr. Loomis offered the following resolution and moved its adoption which prevailed:

Whereas, The Kent County Board of Supervisors, on April 27, 1921, (see proceedings of Board, page 531,) adopted a line of action relative to the abandonment of the court house contract by the Western Construction Company of which the following is a part, viz:

"Resolved, Further that the Board of Supervisors of the County of Kent will retain out of said contract price all monies now in its hands until the further order of the Board;" and,

Whereas, The above cited resolution refers specifically to the fifteen per cent retained on estimates to the Western Construction Company and for work performed by the various sub-contractors, including Mr. H. E. Doren; now, therefore, be it

Resolved, That the communication of Mr. Doren be returned to him by the Clerk of the Board, and that Mr. Doren be referred to the proceedings of the Board in April, 1921, relative to the whole matter of the contracts on the court house building as a reason why the board is estopped at this time from any action on the communication of Mr. Doren now before this Board.

The following report was read, and on motion of Mr. Loomis the report was adopted by a vote of 33 yeas and no nays.

To the Honorable Board of Supervisors of the County of Kent:

Gentlemen—Your committee to whom was referred the petition of M. B. Church, president of the Valley City Transportation Company, Limited, have had the same under consideration and respectfully report that:

Whereas, At a session of the Board of Supervisors of said county of Kent, held on the 16th day of June, 1921, permission was granted to the Grand Rapids, Newaygo and Lake Shore Railroad Company to construct and maintain a bridge across Grand river, south of Fulton street, and within the city of Grand Rapids, in said county, with the reservation in said grant contained; that whenever in the future the navigation of Grand river may be improved at and above said bridge in the west or main channel thereof, either by the state or national government, so that in the opinion of the Board of Supervisors of the said County of Kent, it will be for the public interests to have a draw-bridge constructed over the west channel of said river, said company shall on the order of the said Board construct such draw over the west channel of said river; and,

Whereas, The said Grand Rapids, Newaygo and Lake Shore Railroad Company have transferred all their property and interests, including said bridge, to the Chicago and West Michigan Railway Company, and that said Chicago and West Michigan Railway Company now own and operate said road, and own and control said bridge; and,

Whereas, The Valley City Transportation Company, Limited, has been organized for the purpose of operating a line of steamers upon said Grand river, between the city of Grand Rapids and the city of Grand Haven, and that they have already had constructed at large expense one steamboat for such purpose, and are about ready to launch the same in Grand river, and that they have secured valuable property for dock privileges upon the bank of said river, at the west end of Fulton street bridge, known as Hovey's dock upon which it is proposed to build valuable buildings for freight houses and passenger depot, to accommodate the traffic upon said river, and it is proposed to run said boats to said land.

It is therefore the conclusion of your committee that as Fulton street bridge is regarded as the head of navigation, public interest demands the immediate construction of the necessary draw in said bridge, and would recommend the passage of the following resolutions:

Resolved, That the Chicago and West Michigan Railway Company be and it is proposed to run said boats to said land.

Resolved, That the Chicago and West Michigan Railway Company be and it is proposed to run said boats to said land.

Resolved, That the Chicago and West Michigan Railway Company be and it is proposed to run said boats to said land.

For over a quarter of a Century we have been devoting our energies to making durable and artistic Foot Wear at reasonable prices, and have a standing offer of \$1,000.00 DOLLARS REWARD for shoddy or spurious leather of any kind found in any one of our manufactories. Ten to twenty-five cents per pair is a small amount to save in purchasing a pair of shoes and the comfort of our service, and perhaps still profit by it. It is a source of vexation instead of pride.

Nothing Adds More to the Appearance of a Well Dressed Person than a well-made, properly fitted shoe, for, as Thackeray well said, "Poverty first attacks one at the extremities." Since the inception of our firm in 1868, our senior partner, H. S.
